

These numbers were chosen arbitrarily. They are constructed such that a search program seeking non-delimited social security numbers should detect this file. This file is intended only for testing such software tools. The numbers below may or may not actually be in use.

The prefixes ?318? and ?361? are the lowest and highest prefix used in Illinois. The rest of the numbers are simply counting upwards from ?123456?.

318123456 318123457 318123458 318123459 361123456 361123457 361123458
